- Production and Packaging Lines, spare parts, wear parts and consumables

**Company Profile** ACTiM was established in January 1996 with the purpose to supply the Italian market with filter aids, processing aids and fine chemicals, from all over the world, focusing on selected product lines or end-users. The development of our activity in selling machines for production, printing and QC of optical discs started in 2002 with CD and DVD production lines. In the following years we added offset printers for CD and DVD and other ancillary equipment, spare parts, wear parts and consumables, and in In 2007 Sheet-fed Offset Printers completed our portfolio. Today ACTiM is agent and distributor in Italy and in Europe of Italian and foreign producers, known for the quality of their products and their professional reliability (see the links page for more details).
